

### **Programme Outcomes of B.A. programme:**

1. **Effective Communication:** Ability to communicate effectively in regional language as well as in Hindi and English. Ability to express ideas and communicate them to the teachers and the fellow students as well as to the society.
2. **Acquiring Knowledge:** Acquire thorough knowledge of the subjects learnt and make the use of that knowledge for the welfare of the self and the society.
3. **Personality Development:** Development of the personality by acquiring knowledge and make overall development of the self. Acquire various soft-skills required for the development of one's personality.
4. **Social Interaction:** Enable the students to connect themselves to the society and devote oneself for the various social works. Create social awareness as to extend their services during the natural calamities and show their social affinity during various critical situations.
5. **Ethics and moral values:** Understand the ethics and moral values and practise these values in day to day life. Understand the moral responsibilities and incorporate them in everyday life.
6. **Environment Awareness:** Awareness towards the environment by the active involvement in various activities related to environment awareness. Active participation for the plantation and conservation of trees and make efforts to create eco-friendly atmosphere in and out of the campus.
7. **Self-Sustainability :** Ability to take initiatives for various activities, make proper planning of everything and decision making power as to undertake the task independently and in group. Develop leadership quality as to lead from the front and take appropriate decisions.
8. **Digital Literacy:** Ability to make use of digital equipment for acquiring the knowledge effectively. Ability to use INTERNET for the purpose of gathering information and further enhancement. Ability to make use of Power Point presentation and other software for the the effective deliberation of ideas. Ability to use email facilities for preparing and submitting project reports, etc.
9. **Team work:** To work in group as a team and expedite any assignment or task within the stipulated time. To undertake various programmes and make proper planning and work as a team for the successful organization of any programme.
10. **Physical Ability :** Ability to remain physically fit to perform any task. To be consistent and aware of the own fitness and give the 'mantra' of fitness to the community. To inculcate the sports skills among the self and others to remain fit forever.

## **Program Outcomes of M.A.**

- i In depth Knowledge of the subject: Students will get thorough knowledge of the subject in their respective subjects. They will enhance their knowledge of the subject and make their study from all aspects of the selected subject.
- ii Employable Skills: Inability to master the various skills related to the subject and the skills which will be useful for them to achieve their desired goal
- iii. Creativity: The students are able to create their own ideas and develop those ideas for the further improvements.
- iv. Language skills: Essential language and communication skills will be acquired which will make them an effective communicator.
- v. Research Aptitude: Enable the students to get involved in various research activities. Learn various research methodologies
- vi. Team spirit: Learn to work in group as a team and help in effective deliberation of the work/ projects undertaken.
- vii. Ability to evaluate : Develop the ability to make proper evaluation which will enable them to make proper planning and schedule of the activities undertaken.

### **Programme Outcomes : Bachelor of Science (BSc)**

- 1) Students can understand research methods and analysis of data . They can make conclusions based on research .
- 2) Students can use appropriate techniques and instruments for various practicals
- 3) They can understand social and cultural issues as well as civic responsibilities and ethical values .
- 4) They are able to communicate effectively .
- 5) They have a scientific temper.
- 6) They can apply scientific principles in day to day life for the welfare of the society .
- 7) They can recognize the need of the society.
- 8) They can utilize & manage the different types of resources.
- 9) They can understand environmental issues & find out solutions for them .
- 10) They become professional personnel required for various sectors .

Programme Outcomes:

M. Sc. Chemistry

Department of Chemistry

After successful completion of two year degree programme in chemistry a student should be able to;

Programme Outcomes

PO-1. Demonstrate, solve and an understanding of major concepts in all disciplines of Chemistry.

PO-2. Solve the problem and also think methodically, independently and draw a logical conclusion.

PO-3. Create an awareness of the impact of chemistry on the society, and development outside the scientific community.

PO-4. Become professionally trained in the area of Industry, material science, lasers and Nano-Technology.

PO-5. Employ critical thinking and the scientific knowledge to design, carry out, record and analyze the results of Chemistry experiments.

PO-6. To inculcate the scientific temperament in the students and outside the scientific community.

PO-7. Apply modern methods of analysis to chemical systems in a laboratory setting.

PO-8. Learn about the potential uses of analytical industrial chemistry.

PO-9. Carry out experiments in the area of organic analysis, estimation, separation, derivation process, conduct metric and potentiometric analysis.

PO-10. Gathers attention about the physical aspects of atomic structure, various energy transformation, molecular assembly in nanolevel and significance of electrochemistry.

PO-11. Understand good laboratory practices and safety.

PO-12. Introduce advanced techniques and ideas required in developing area of Chemistry.

PO-13. Make aware and handle the sophisticated instruments/equipments.

Dadapatil Rajale Arts, Science and Commerce College, Adinathnagar

Tal: Pathardi, Dist.: Ahmednagar.

## **Outcomes**

Faculty of Commerce

---

- **Programme Outcome (PO):**

After completing three years for Bachelors in Commerce (B.Com) program, students would gain a thorough grounding in the fundamentals of Commerce and Finance. The commerce and finance focused curriculum offers a number of specializations and practical exposures which would equip the student to face the modern-day challenges in commerce and business.

The all-inclusive outlook of the course offer a number of values based and job oriented courses ensures that students are trained into up-to-date. In advanced accounting courses beyond the introductory level, affective development will also progress to the valuing and organization levels.
