Best Practices 2020-21

Best Practice No. 1

Title of the Practice: **Felicitation of the Meritorious Students**

Objectives of the Practice: The main objective of this activity is to felicitate the meritorious students and to inspire all other students to work hard to achieve their goals. The practice is conducted with the purpose to appreciate the efforts of the students who mostly belong to poor families and come from farmer backgrounds.

The Context: Most of the students of the surrounding region belong to socially and economically backward classes. As such, there is little awareness towards education among the parents of such students. Such parents need to be inspired to opt for higher education and one way of inspiring such parents is through felicitating the performances of their wards.

The Practice: On 5th December 2020, on the occasion of the birth anniversary of the former President of the Institute, Late Mr. Rajeev Rajale, the meritorious students from the region who had given excellent performance in examinations, sports, other activities, etc. were felicitated. Thirty-nine students were felicitated for achieving success in various fields. These students were felicitated with a trophy and a book. The parents of these students were also invited.

Evidence of Success: This is a unique practice being conducted every year. The students who have shown excellent performances in various fields need appreciation and inspiration. The practice has proved very fruitful to inspire other students to give their best in whatever field they are interested in. It also gave a message to the parents about the need for higher education to uplift themselves.

Problems Encountered and Resources Required: It was required to communicate with all the students and the parents regarding the felicitation programme. It required certain arrangements such as certificates, trophies, books, etc. Some problems were encountered due to the outbreak of CORONA. However, the activity was conducted following all the Covid guidelines. The practice is organized every year on the 22nd of August but due to the Pandemic situation, it got postponed.

Notes: Even during the pandemic period when everything is done through online mode, it is the best example of how even the activities related to physical fitness can be conducted through online mode.

: Best Practices No. 2

2. Title of the Practice: Run for Fit

Objectives of the Practice: The main objective of this activity is to spread awareness towards fitness and the importance of fitness in our day-to-day life. The activity is organized with the purpose of spreading the message of fitness to schools and colleges in the region.

The Context: Human life has become hectic and there is little awareness towards health and fitness. Exercise is quite essential to keep our body and mind active and fresh. Activities like running and walking are very significant to maintain overall health.

The Practice: The College participated in the 'Run for Fit' event organized under the Fit India Movement. This activity was conducted through an online mode from 1st September to 10th September 2020. A total number of 114 participants took part in the activities of 1 K.M, 2 K.M., and 3 K.M. The College also participated in 'Prabhatpheri -2020' under the FIT INDIA MOVEMENT.

Evidence of Success: Due to the Pandemic, the activity was organized through the online mode with the help of certain applications indicating the performance of the participants. We received an overwhelming response from all sections of people. We also received excellent feedback from the participants which showed that such activities can promote awareness among the people towards health and fitness.

Problems Encountered and Resources Required: It was a challenge to conduct the whole activity through online mode. However, with the help of certain applications, it became possible to monitor the activity. It required the resources such as mobile and some pre-loaded applications.

Notes: Even during the pandemic period when everything is done through online mode, it is the best example how even the activities related to physical fitness can be conducted through online mode.
